

SING SHOUT SPELL IT ALL OUT

Copyright © 2018 Robbie Smith & Kathleen Glausser

**Hey hey hey Mr. T,
Won't you look over here, won't you listen to me
Hey hey we've got something to say,
We're standing right here, not going away**

**We're gonna sing shout, spell it all out
Till you put it in our constitution
We're gonna sing shout, spell it all out
Got a problem? Get a solution...**

**So many nations are proud to be one
Of the countries who value their daughters and sons
We want: clean air to breathe, pure water to drink
Safe food on the table, so what do you think?**

**We're gonna sing shout, spell it all out
Till you put it in our constitution
We're gonna sing shout, spell it all out
Got a problem? Get a solution...
Sing... Shout... spell it all out spell it all out**

**Hey hey, Five million of us are singing out loud:
Who's driving the bus?
We heard mother earth, she's crying big tears
There's no Planet B, so get into gear**

**Oh Canada we looked for our place
In the list of the Nations setting the pace
To protect Mother Nature but we're lagging behind
And we are your future so keep that in mind**

**We're gonna sing shout, spell it all out
Till you put it in our constitution
We're gonna sing shout, spell it all out
Got a problem? So get a solution
Sing... Shout... spell it all out spell it all out**
